It has, however, occurred to the writer

that a plan both simple and comparatively

inexpensive may be adopted by which free-

dom from gas-poison as well in the streets

as in the houses of the city shall be secured.

During warm weather, both in winter and

summer, in passing any one of the openings

to the sewers at the street-corners, the pre-

sence of foul aid is often detected. At times

it pervades an entire neighborhood, charg-

Some time before that hour it became known that the Committee on Time-Sheet had agreed upon a report recommending the retention of the present schedule for both morning and night train, and there was no surprise when

THE REPORT OF THE COMMITTEE

RICHMOND, April 17, 1878. The Committee on the Time-Sheet beg leave to submit the following resolutions as their recommendations to the Convention: Resolved, That the present through time to and from southern points be continued in force during the summer season.

Resolved, That the next meeting of the qualified. Convention be held in New York, at the for want of a quorum until Wednesday, Windsor Hotel, on Thursday, October 17, 1878, at 11 A. M. R. R. BRIDGERS, Chairman.

to that portion relating to the adoption of

country between Baltimore and Danville by the Virginia Midland line, will be best subserved by a train leaving Washington at a reasonable hour in the morning, and still making present connections to New Orleans and other southern cities; therefore, to secure to these cities the facilities for their position entitled, it is

Resolved, That the present schedule be so modified as to make the southern connection from New York by the train leaving there about 9 o'clock P. M. and leaving Washington about 7 o'clock A. M., with such other changes only as may be made necessary by this departure from the present schedule. THE REPORT DISCUSSED.

Mr. Barbour addressed the Convention very warmly in opposition to the committee's report and in favor of his amendment by way of a substitute. He said he was now running three trains from Washington-one leaving at 8:30 A. M., another at 9:30 P. M., and the third about 2:45 A. M. He had been forced to do this in order to connect with the trains from the North

and he would also withdraw from the Convention. He could not be expected to run one train with Mr. Fink's road (Atlantic, Mississippi and Ohloj, one with Colonel Talcott's road (the Richmond and Danville railroad), and still a third with Mr. Fink's road. He wanted to go back to the old time-honored schedule, and leave New York about 9 o'clock at night. That is the train, said he, that we are compelled to connect with; and whatever this Convention does we must run a day train for the accomodation of the people. He thought there

Mr. Bridgers said that the whole railroad system of the South had been represented on the committee, and he could see no good reason why the matter should be longer deayed; he therefore called the question. Mr. Barbour asked that the vote be taken

or aves and noes. Mr. Palmer, of the Charleston, Columbia and Augusta road, said that, after all, the travel until October will be mostly northward, so it will probably be better to let the matter rest until October. That seemed to be the general feeling of the committee. THE PRESENT SCHEDULE TO BE RETAINED.

of Surry county, was C. H. H. Tinsley. in the city yesterday. S. L. Graves, formerly of Manchester, is now engaged on a coastwise trader plying between Salem, Mass., and New York.

Hustings Court .- The only case tried yes terday was that of Nellie Gregory (colored) charged with the larceny of two rings, the property of Mrs. S. M. Perdue. The jury failed to agree. Captain George D. Wise represented the prisoner, A. C. Attkisson appeared for the Common wealth. There is mother indictment against the accused for house-burning.

A GREAT IMPORTED HORSE COMING TO VIB-GINIA .- We understand that Mr. R. W. CAMERON of New York, who has been probably the largest importer of thoroughbred stock into our country since the war, has been persuaded by Judge Hughes to allow his imported English horse "Hartington" o come to Virginia, to be in the care and keep of Mr. DAN. WARD, of the State Fair-Grounds, near Richmond, for this and the next season.

"Hartington" is as highly bred as any living lorse. He was the best three-year-old of his year 1863) in England, having won the Czarowitch wo-and-a-quarter-mile race, beating a field of thirty-eight, amongst them "Fisherman," "Prioress," and all the crack bloods of that entry. Two weeks after, carrying ten pounds extra, he ran a close neck-and-neck second in a field of thirty-eight, at Cambridgeshire.

Mr. CAMERON imported "Hartington" and Leamington" at the same time, and thinks "Hartington" as good a horse as his great compagnon du voyage. He is now eighteen years old, but i ounger by seven years than "Leamington. Hartington" cost in England the sum of 650 guineas, after a brilliant career as a racer. "Hartington" has been kept at Clifton by Mr. CAMERON ever since his arrival in this country,

and has not been put to the stud for the public His foals will none of them come into the regular stakes until 1880, when it is not feared but that they will show their high and rare breeding. " Hart ington" is a large bay, and will make a fine cros upon our Virginia bloods. WHAT IS BEAUTY ?- This question has alike puz-

zled the lover and the philosopher. The sage anayzes it into perfection of feature and coloring, and the lover, looking into the homely face of his adored mistress, declares that true beauty pertains rather to the imperishable soul than to the ever-changing body. But the physician knows that the chief element of beauty is health. Health is to beauty what Mr. Barbour said he did not propose to the subtle magnetic current is to the bar of polished mitted by wire-rope protected in boxes un- word of which was heard with the greatest division; H. F. Kenney, president Phila- be bound by the action of the Convention, steel-by its presence attracting and retaining all its devotees. Beauty without health is a shrine without an oracle. Woman cannot possess this subtle, attractive power of beauty while suffering from those chronic ailments and weaknesses that continually exhaust the springs of her vitality. Dr. Pierce's celebrated specific for this class of diseases, the Fa vorite Prescription, has been used by thousands o these sufferers, restoring to them health, strength and beauty.

A EUROPEAN HOTEL .- Richmond now boasts of its European house or hotel with table d' hote gotten up upon a plan of artistic skill and refinement that will please the guests from abroad as well as at home; indeed, everybody who knows what is good. This establishment has been known as the PARK HOTEL and the CAFE. It has passed into the hands

of the first cook in America, SPIRO ZETELLE, endeared to our own people by near forty years spent amongst the citizens of Richmond and of Virginia. He has done more to minister to the pleasure of our cople at the festive board than any man living. ZETELLE is "himself again." That is, he is sitnated now in a manner to vindicate himself, to vindicate his reputation as chef de cuisine, and as Prime Minister of the temple of good living. In every department of his establishment there prevail the discipline and the regulations that must cenre faultless fare, superb wines and liquors, and good attendance.

This morning ZETELLE rises fresh as a lark and to thirteen candidates, two of whom were moves onward with a brightness, geniality, and consideration that promise years of satisfaction an success to both guests and host.
